NO NEW CHOLERA CASES AMONG THE IMMIGRANTS

No Developments in Twenty-Four liours, the New York Physicians Say.

New York, July 21.—The Federal and State physicians and bacteriologists down the harbor guarding the country from a threatened invasion of each try from a threatened invasion of choltry from a threatened invasion of choi-cra were encouraged to-day by the fact that no cases of the disease have been found thus far among the latest arrivals from Italy. Twenty-four hours have classed since the steamer Prin-cipe di Pemonti, from Genoa and Na-ples, entered quarantine, and the offi-cial report to-day said no further de-velopments of the disease had ap-peared.

Money to Loan BIG COMBINATIONS

pany and the tobacco "trust" are going

ment scored great victories there. Do not let anybody deceive you as to that."

In referring to the Sherman antitrust law, the Attorney-General said:

"Some people are saying that these decisions don't really mean anything; that the big trusts will simply reorganize under other forms and go on just as before.

"Don't believe any such talk. Take my assurance for it that those big combinations are going to be split up late a number of separate and distinct parts, no one of which shall have any connection or control over any other, and no one of which shall have so large a percentage of the business as to be anything like a monopoly. That is what I understand the court to require, and nothing less will meet my interpretation of the decisions of the Supreme Court.

"Well, you have put in the hands of your Department of Justice a great many other laws to enforce, and we have been enforcing them, and we shall go on enforcing them, unless Congress next fall shall fail to give us money enough to do so. Under President Taft the law has been enforced to the best of the abilities of those to whom he has intrusted its enforcement, with the sincere effort to make that enforcement therough dispassionate and without undue discrimination. It has been sought to make the 4d-ministration of justice effective without being clamorous. No matter who should be at the head of that department, so long as William H. Taft is President, no other policy could obtain."

CONTROLLER BAY REPORT READY NEXT WEDNESDAY

President to Submit Exhaustive Statement, Covering Every Detail of the Case.

Washington, July 21.—The President's report to Congress of the Controller Bay affair will reach that body next Wednesday afternoon following the vote upon the wool bill. The report has been completed. The President has taken pains to give every detail of this matter as found in every department interested. The House committee on expenditures in the Interior Department, which is investigating the Controller Bay tangle, held no meeting to-day.

The House committee on expenditures in the Interior Department, which is investigating the Controller Bay tangle, held no meeting to-day. Delegate Wickersham, of Alaska, was not ready to begin his testimony and, besides, it is understood the committee has decided not to meet again until Louis D. Brandels, of Boston, who has been employed as attorney for the committee, arrives in Washington. Chairman Graham said to-day that no date had been set for the next meeting of the committee, but that a call would be sent out as soon as Mr. Brandels arrived in town and had made himself familiar wit hite inquiry and its progress up to date.
